## Bounded rationality - Wikipedia

Bounded rationality is the idea that rationality is limited when individuals make decisions. In other words, humans' "preferences are determined by changes in outcomes relative to a certain reference level". Limitations include the difficulty of the problem requiring a decision, the cognitive capability of the mind, and the time available to make the decision.

## **The COVID pandemic and social theory: Social democracy and**

Nov 10, 2020 · A contrast between libertarian and authoritarian approaches to the coronavirus (COVID) pandemic has been central to early debates in social theory on the implications of COVID for society (Agamben, 2020; Delanty, 2020b). However, this underestimates the significance of the contestation between social democratic and neoliberal visions of society, the understanding of public health as a ...
